Re: **CONDITIONAL APPROVAL
SOUTH PLUME EE/CA ADDENDUM**

Mr. Jack R. Craig
Project Manager
U.S. DOE FEMP
P.O. Box 398705
Cincinnati, Ohio 45239

Dear Mr. Craig:

The purpose of this letter is to conditionally approve the Revised South Groundwater Contamination Plume Removal Action EE/CA Addendum. The conditions for this approval are that DOE address, to Ohio EPA satisfaction, the comments listed below:

Response to Comments

1. Response to Ohio EPA Comment #6: DOE's response to this comment suggested a meeting between DOE and PRRS would occur during the month of December, yet DOE's response to a similar comment by U.S. EPA (Comment #9) stated the meeting would occur in November. Ohio EPA supports this meeting but feels that DOE must be more consistent about the timeframe in which it will occur. DOE should provide a date and agenda for the meeting between DOE and the PRRS companies. Ohio EPA does not plan to attend this meeting.

Revised Addendum

1. Page three, Last paragraph: As of October 29, 1991 managers meeting, Ohio EPA was under the impression that a transfer pump station was no longer needed as a part of the removal action. Why has the transfer pump station been added to the EE/CA? Additionally, the EE/CA does not discuss the incorporation of an aeration tank to increase the dissolved oxygen content of the groundwater prior to discharge.
2. Figure three: The location of manhole 176 was not included on Figure three. The location should be added. (See also U.S. EPA Comment #1).

These comments should be addressed in the final EE/CA Addendum.
Please contact me if you have any questions about these comments.

Sincerely,

Graham E. Mitchell
Project Manager
