Cincinnati, Ohio 45239-8705

Dear Mr. Tiller:

This letter confirms that "All Other Materials" as discussed in paragraph 3.5.1(d) of the proposed Amended Consent Decree (PACD) concerns a universe of approximately 36,000 drum equivalents of waste identified during the June, 1990 negotiations.

Material identified during the Hazardous Waste Management Review subsequent to the June, 1990 negotiations should be treated as "Newly Identified" materials.

Please call Graham Mitchell or me at (513) 285-6357.

Sincerely,

Paul D. Pardi
Hazardous Waste Group Leader
