RE: Responses to Comments on the  
OU #5 Work Plan Addendum for  
Additional Monitoring Wells

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the Response to Comments on the Operable Unit (OU) #5 Work Plan Addendum for Additional Monitoring Wells.

The response to comments on the Work plan satisfactorily addresses all comments except comment 4. The United States Department of Energy (U.S. DOE) must provide further information regarding the location and depth of the monitor well located within the inactive flyash pile.

Thus, U.S. EPA approves the Work Plan pending U.S. DOE's submission of the above documentaion responding to U.S. EPA's comment.

Please contact me at (312/FTS) 886-0992 if you have any questions.

Sincerely,

James A. Saric  
Remedial Project Manager
