Re: **COMMENTS ON THE
REVISED COMMUNITY
RELATIONS PLAN**

Mr. Jack Craig
Project Manager
U.S. DOE FEMP
P.O. Box 398705
Cincinnati, Ohio 45239

Dear Mr. Craig:

Listed below are Ohio EPA's comments on the Revised Community Relations Plan:

General Comment

- 1) DOE needs to update the Community Relations Plan (CRP) in a more timely/efficient manner. The submission of the January revision of this document to the EPA in April is an example of the problems with such a drawn out revision process. By the time the document reaches the public it is already out of date. DOE should make an effort to correct this problem.

Specific Comments

- 1) Section 2.5, Table 2-3, pg. 15: The Phase Three Removal Action list was submitted, reviewed and approved several months ago and needs to be incorporated into this revision of the CRP. Please modify the CRP to agree with current site status.
- 2) Appendix B, OHIO EPA, pg. 2: Please make the following corrections. Delete 1) Mike Starkey, Correction Actions and 2) Paul Pardi, Hazardous Waste. Add 1) Tom Schneider, Remedial Response and 2) Phil Harris, Hazardous Waste.
- 3) Appendix G: It is unclear when this appendix will be used. Numerous removal actions are being developed, implemented, or completed, yet no outlines are attached. Please add outlines, if this is to incorporate Phase II or Phase III Removal Actions.

Mr. Jack R. Craig
U.S. DOE FEMP
