Dear Mr. Daugherty:

ACTION MEMORANDUM - TRAILERS EAST OF TRAILER T-39 (EPA/PARSONS OFFICE TRAILERS PROJECT, PA 00-91201)

Reference: Letter, DOE-930-90, R. J. Hansen to M. B. Boswell, "CERCLA Removal Actions," dated April 23, 1990

The enclosed Removal Site Evaluation (RSE) for the two Duplex Trailers east of trailer T-39 has been reviewed by my office. Based on this review, the Department of Energy has determined that this work does not constitute a removal action.

Construction rubble and debris associated with this work can be removed and dispositioned following the specific control measures noted within the RSE document and per the radiological guidelines specified in the FEMP Site Policy and Procedures and Removal Action Number 17. The Administrative Record for the Remedial Investigation/Feasibility Study (RI/FS) should include this document.

At the completion of this project, Westinghouse Environmental Management Company of Ohio (WEMCO) should submit a final report describing the changed site conditions, detailing the volume of waste generated, the number and type of containers used, the locations of dispositioned material (including containers), and the results of any verification sampling. Furthermore, this final report should be submitted to the Administrative Record for the RI/FS.

If you or your staff have any questions, please contact Robert Janke at extension 6883.

Sincerely,

A handwritten signature in black ink that reads "R. E. Tiller".
