Dear Mr. Saric and Mr. Mitchell:

ADDENDUM TO THE REMOVAL OF WASTE INVENTORIES - REMOVAL ACTION NUMBER 9 - LOW LEVEL RADIOACTIVE WASTE AND THORIUM MANAGEMENT PROCEDURES

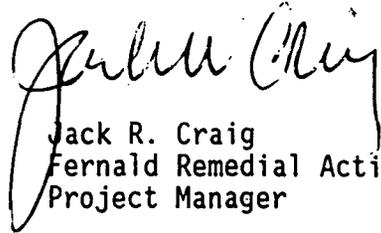

The purpose of this letter is to transmit, for your information, an overview and a status update on Removal Action (RA) Number 9 in the form of an addendum to the procedure compilation documents provided to you since the initiation of this program.

Specifically, the enclosed addendum provides an overview of the program and highlights the procedures and documentation submitted to the United States Environmental Protection Agency (U.S. EPA) and Ohio Environmental Protection Agency (Ohio EPA) for RA Number 9. The addendum also provides a chart which summarizes the procedures that have been written or revised with each of the submittals to the U.S. EPA and Ohio EPA since the initiation of RA Number 9.

Finally, the addendum provides a status update on the quantities and types of waste which have been shipped this fiscal year, as of June 30, 1992, as well as future estimates of waste shipments. Future procedural update submittals to the U.S. EPA and Ohio EPA will consist of new procedures or procedures which have been revised and status updates on the program.

If you or your staff have any questions, please contact Robert J. Janke at
FTS/Commercial (513) 738-6883.

Sincerely,

Jack R. Craig
