Dear Mr. Adamkus and Mr. Schregardus:

EXPOSURE INFORMATION REPORT FOR THE US DOE FERNALD ENVIRONMENTAL MANAGEMENT PROJECT, FERNALD, OHIO; EPA ID NO. OHD6890008976

The U.S. Department of Energy (DOE), Fernald Office (FO), is submitting the enclosed Exposure Information Report (EIR) to meet requirements of Ohio Administrative Code (OAC) 3745-50-40(G) and Title 40 of the Code of Federal Regulations 270.10(j). These rules state that RCRA Part B Permit Applicants that treat, store, or dispose of hazardous waste in a surface impoundment or landfill must provide information, reasonably ascertainable by the owner or operator, on the potential for the public to be exposed to hazardous wastes or hazardous constituents through releases related to the units.

The Fernald Environmental Management Project (FEMP) identified nine Hazardous Waste Management Units in their RCRA Part B Permit Application that meet the definition of a surface impoundment or landfill. The FEMP is not seeking a RCRA permit for any of these nine units. One of these units, Waste Pit No.4, has undergone interim closure, and the remaining eight units are slated for closure according to schedules submitted to the Ohio Environmental Protection Agency on August 27, 1991. The enclosed EIR has been formatted according to the United States Environmental Protection Agency document PB87-193694 titled "Permit Applicants' Guidance Manual for Exposure Information Requirements Under RCRA Section 3019". This EIR has been extensively revised from previous submittals and has, therefore, been designated as FEMP REV 0, dated October 1991.

Copies of the EIR have been forwarded as noted below. If your staff has any questions, please have them contact David Rast at 513-738-6322.

Sincerely,

for R. E. Tiller
R. E. Tiller
Manager
