THE UNITED STATES DEPARTMENT OF  
ENERGY ANNOUNCES THE AVAILABILITY FOR PUBLIC REVIEW  
OF THE ADMINISTRATIVE RECORD FILE FOR THE  
REMOVAL OF THE CONTAMINATION AT THE FIRE TRAINING FACILITY  
AT THE DOE FERNALD ENVIRONMENTAL MANAGEMENT PROJECT  
AT FERNALD, OHIO

3741

The U. S. Department of Energy (DOE) announces that the Administrative Record file for the Contamination at the Fire Training Facility Removal Action is available for public review and comment. The Administrative Record file will include documentation, as it is generated, relative to the decision for selecting and implementing the Contamination at the Fire Training Facility Removal Action. These documents may include, but are not limited to, sampling data, comments, new data submitted by interested persons, and DOE responses to significant public comments.

The Fire Training Facility was used to simulate fire and emergency response conditions for training site personnel. It is located north of the production area. Currently, the facility is made up of an abandoned concrete block building, an eight-foot diameter pressure vessel, a 500-gallon skid-mounted steel tank, a smaller rectangular tank and an underground sump.

The removal action involved the following items: the windows and door of the building have been boarded up to prevent access. The tanks and sump have been surrounded by a fence and the area is marked with signs restricting access. Access to the pressure valve is uncontrolled but the tanks are empty.

The Administrative Record file for the Contamination at the Fire Training Facility Removal Action is available at the following location and times:

Public Environmental Information Center  
JAMTEK Building  
10845 Hamilton-Cleves Highway  
Harrison, Ohio 45030

## Hours:

Monday &amp; Thursday

9:00am - 8:00pm

Tuesday, Wednesday, &amp; Friday

9:00am - 4:30pm

Saturday

9:00am - 1:00pm

Comments, written or oral, should be directed to:

Mr. W. D. Adams, Acting Manager  
DOE Field Office, Fernald  
U. S. Department of Energy
