RE: FEMP Technology
Demonstrations

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has reviewed the United States Department of Energy's (U.S. DOE) letter, received September 1, 1992, regarding U.S. EPA's involvement in technology demonstrations at the Fernald Environmental Management Project.

U.S. EPA recognizes the benefits of technology demonstrations and concurs with the above referenced letter. U.S. EPA will continue to be involved with the technology demonstrations. However, technology demonstrations are not part of the 1991 Consent Agreement (V-W-90-C-057). Therefore, failure by U.S. EPA to provide comments to U.S. DOE on a technology demonstration should not be construed as an approval.

Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric
Remedial Project Manager
