Dayton, Ohio 45402

Dear Mr. Saric and Mr. Mitchell:

**TRANSMITTAL OF REMEDIAL INVESTIGATION FEASIBILITY STUDY (RI/FS) WORK PLAN
ADDENDUM FOR THE OPERABLE UNIT (OU) 5 OUTFALL LINE INVESTIGATION - GROUNDWATER
SAMPLING PROGRAM, DOCUMENT CHANGE REQUEST NO. 80**

This letter transmits the RI/FS Work Plan Addendum for the Operable Unit 5 Outfall Line Investigation - Groundwater Sampling Program. This work is being proposed to investigate potential leakage from the Outfall Pipeline. Based on a 1990 investigation, numerous dislocated joints were identified in the Outfall Pipeline between Manholes 179 and 180. The additional Groundwater Sampling Program identified in the work plan is required to collect adequate Field Investigation Data to support the OU 5 Remedial Investigation.

If you or your staff have any questions, please contact Pete Yerace at FTS/Commercial 513-738-6178.

Sincerely,

Jack R. Craig
Fernald Remedial Action
Project Manager
