RE: Emissions Fee for Application Number 1431110128

BEHRAM SHROFF
U.S. DEPT OF ENERGY-FERNALD ENVR MANAGEM
P.O. BOX 398705
CINCINNATI, OH 45239

Date: January 5, 1993

Dear BEHRAM SHROFF:

To enable Ohio EPA to maintain an effective air permitting program, Ohio Revised Code was recently changed to allow Ohio EPA to collect fees from air contaminant sources. Your facility is affected by this fee. An invoice is enclosed.

Invoices are being mailed to all facilities in Ohio whose allowable emissions are 25 tons or more per year for particulates, sulfur dioxide, nitrogen oxides, or organic compounds. The fee is \$8 per ton based on your maximum hourly allowable emission rate and normal annual operating hours.

In the near future, your facility likely will begin paying fees (based on actual emissions) of at least \$25 per ton under Title V of the new Clean Air Act. Until then, this lower interim fee will reduce the impact of State budget cuts and ensure that services are maintained at Ohio EPA. When the future \$25 per ton Title V fee is in effect, this interim fee will not be required.

The first half of the fee noted on the enclosed invoice is due on February 15, 1993. The remainder is due on May 1, 1993. Another invoice will be mailed to you prior to April 1, 1993.

The revised language in Ohio Revised Code is found in Section 3745.111. If you have additional questions after reading this section, please contact:
