Mr. Graham E. Mitchell, Project Manager
Ohio Environmental Protection Agency
40 South Main Street
Dayton, Ohio 45402-2086

Dear Mr. Saric and Mr. Mitchell:

**REVISED DRAFT REMOVAL ACTION WORK PLAN FOR REMOVAL ACTION 25 - NITRIC ACID
TANK CAR AND AREA**

This letter transmits, for your review and approval, the Revised Draft Removal Action Work Plan (RAWP)/Closure Plan Information and Data Package (CPID) for Removal Action 25. This revised draft Work Plan for Removal Action 25 includes the responses and actions addressing each of the comments received on December 9, 1992, and December 2, 1992, from the United States Environmental Protection Agency (USEPA) and Ohio Environmental Protection Agency (OEPA), respectively.

This plan was developed, to the extent practical, in accordance with the conditionally approved Site-Wide CERCLA Quality Assurance Project Plan (SCQ). As EPA is currently aware there is an unresolved issue related to the implementation of the analytical methods contained in the SCQ. This issue is being addressed and this plan will be implemented to the specifications in accordance with the final approval of the SCQ. The Department of Energy (DOE) anticipates the resolution of this issue prior to the initiation of the sampling described in this plan.

If you or your staff have questions or comments, please contact Anand Shah at 513-738-6156.

Sincerely,

Randi Allen
for

Jack R. Craig
Fernald Remedial Action
Project Manager
