Mr. Graham E. Mitchell, Project Manager  
Ohio Environmental Protection Agency  
40 South Main Street  
Dayton, Ohio 45402-2086

Dear Mr. Saric and Mr. Mitchell:

**ADDITIONAL CHARACTERIZATION OF THE VADOSE AND PERCHED WATER IN THE K-65 AREA**

Enclosed for your review and approval is the Remedial Investigation/ Feasibility Study (RI/FS) Work Plan Addendum for the additional characterization of the perched water west of the K-65 Silos. This package formalizes the discussions held between the United States Environmental Protection Agency, Region 5, the Ohio Environmental Protection Agency, and the Department of Energy, on January 27, 1993.

This additional characterization will be performed under Operable Unit (OU) 5. The results of the field investigation will be taken into consideration during the development of the OU 4 FS. The initial submittal of the OU 4 RI Report on April 19, 1993, will reflect that this work is underway. Assuming that the field work and data validation are completed in a timely fashion, the data resulting from this additional field investigation will be incorporated into the Final OU 4 RI Report.

If you or your staff have any questions, please contact Pete Yerace at (513) 738-6178 or Randi Allen at (513) 738-6158.

Sincerely,

Jack R. Craig  
Fernald Remedial Action  
Project Manager
