RE: Emissions Fee for Application Number 1431110128

BEHRAM SHROFF
U.S. DEPT OF ENERGY-FERNALD ENVR MANAGEM
P.O. BOX 398705
CINCINNATI, OH 45239

Date: March 30, 1993

Dear BEHRAM SHROFF:

To enable Ohio EPA to maintain an effective air permitting program, Ohio Revised Code was recently changed to allow Ohio EPA to collect fees from air contaminant sources. Your facility is affected by this fee. An invoice for the second half of State Fiscal Year 93 is enclosed and is due **May 1, 1993**.

Invoices are being mailed to all facilities in Ohio whose allowable emissions are 25 tons or more per year for particulates, sulfur dioxide, nitrogen oxides, or organic compounds. The fee is \$8 per ton based on your maximum hourly allowable emission rate and normal annual operating hours. The revised language in Ohio Revised Code is found in Section 3745.111.

If your facility has any back-up or stand-by fuel sources, as defined under division (F) or (G) of Section 3704.03 of the Ohio Revised Code, and those fuels were not burned in the six-month period from October 1, 1992 through April 1, 1993, you may be eligible for an adjustment of the fee amount after supplying appropriate documentation. You must submit a copy of: application, appendices, permits, terms and conditions, and fuel usage reports. If you believe there is an error in this billing, for any reason, you must contact Ohio E.P.A. by **April 15, 1993**, with appropriate documentation.

If you have additional questions after reading this section, please contact:
