Cincinnati, Ohio 45239-8705

Dear Mr. Craig:

Ohio EPA has reviewed the documents listed below:

1. O.U. 2 WPA SAP Revision 1 - acceptable.
2. Contaminated Soils Adjacent to the STP Incinerator response to comments - acceptable with one comment.
  - A. The area associated with the support tower for the power transmission lines should be a biased sampling location. The fact that this area should be investigated is supported by the lack of plowing and potential accumulation of airborne contaminants.
3. Revised South Plume Ground Water Recovery D.M.E Program Plan - acceptable.

If you have any questions please contact Tom Schneider or me.

Sincerely,

Graham E. Mitchell  
Project Manager
