*Receipt Acknowledgment
of*

Dear Mr. Rowland:

This will acknowledge receipt of your Spill Prevention, Control and Countermeasure (SPCC) Plan, certified by Surinder Kumar, P.E. Your facility now appears to be in compliance with the Code of Federal Regulations, Title 40, Part 112.

We would like to take this opportunity to remind you that the regulations require the SPCC Plan be reviewed and updated every three (3) years and that, if a spill should occur, the Clean Water Act, Section 311(b)(5) requires that it be reported to the Federal Government.

We have enclosed a poster, for your convenience, which identifies State, regional and national emergency phone numbers. These numbers may be used on a 24-hour, 7-day-per-week basis to report spills. A call to the National Response Center (800-424-8802) satisfies the Federal notification requirement. Please feel free to reproduce this poster as often as you wish.

Should you have any questions about the SPCC Program, please feel free to contact either Ms. Isalee Coleman of my staff at (312) 886-7597, or myself at (312) 353-8200.

Sincerely,

Jose Cisneros, Chief
Emergency Support Section
