Mr. Graham E. Mitchell, Project Manager  
Ohio Environmental Protection Agency  
40 South Main Street  
Dayton, Ohio 45402-2086

Dear Mr. Saric and Mr. Mitchell:

**SUBMITTAL OF THE FINAL SITE WIDE CHARACTERIZATION REPORT (SWCR) TO UNITED STATES ENVIRONMENTAL PROTECTION AGENCY AND OHIO ENVIRONMENTAL PROTECTION AGENCY**

This letter transmits the revised Site-Wide Characterization Report (SWCR). The revised SWCR represents the final version incorporating the United States Environmental Protection Agency (U.S. EPA) and Ohio Environmental Protection Agency (OEPA) comments with the exception of outstanding issues related to risk assessment. The remaining issues are to be resolved at the April 27, 1993 risk assessment meeting in Chicago. It is United States Department of Energy (U.S. DOE) intention to incorporate the resolution of the remaining risk assessment issues into the Baseline Risk Assessment (BRA) for each Operable Unit (OU) Remedial Investigation (RI) report. A statement reflecting the nature of the deviations, associated with the Site-Wide BRA, from U.S.EPA Region V guidance has been included in the SWCR.

If you or your staff have any questions, please contact Randy C. Janke at FTS/Commercial (513) 648-3123.

Sincerely,

Jack R. Craig  
Fernald Remedial Action  
Project Manager

FN:R. C. Janke
