RE: Site-Wide Quality
 Assurance Project Plan
 Final Approval

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) April 29, 1993, Response to Comments and revised Site-Wide Quality Assurance Project Plan (SCQ). Subsequently, several meetings and telephone conferences were held between U.S. EPA and U.S. DOE discussing the revised SCQ, which have resolved all remaining issues.

Therefore, U.S. EPA hereby approves the SCQ. Enclosed is the signature page which must be attached to the final SCQ. U.S. DOE must submit a Final version of the SCQ to U.S. EPA within thirty (30) days of receipt of this letter.

U.S. DOE is also responsible for assuring that all laboratories utilized during this project conform to the SCQ and U.S. DOE's audit protocols. These protocols must incorporate all of the comments included in U.S. EPA's May 11, 1993, correspondence regarding audit procedures.

Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric
 Remedial Project Manager
