Mr. Graham E. Mitchell, Project Manager  
 Southwest District Office  
 Ohio Environmental Protection Agency  
 Dayton, Ohio 45402-2086

Dear Mr. Saric and Mr. Mitchell:

**TRANSMITTAL OF DRAFT REMEDIAL INVESTIGATION FEASIBILITY STUDY WORK PLAN  
 ADDENDUM FOR OPERABLE UNIT 5: PILOT PLANT DRAINAGE DITCH SEEPAGE AND SURFACE  
 WATER BACKGROUND INVESTIGATION (DOCUMENT CHANGE REQUEST RIFS:93:0005)**

Enclosed for your review and approval is the subject work plan addendum. The addendum was prepared to provide a mechanism to address the collection of data needed for the Operable Unit (OU) 5 Remedial Investigation (RI) Report. The need for the additional data was identified during an evaluation of the unvalidated OU 5 Remedial Investigation/Feasibility Study (RI/FS) data set conducted over the past few months.

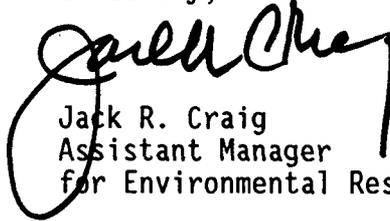

The addendum has been prepared following the recently implemented Site-Wide CERCLA Quality Assurance Project Plan (SCQ) format. In the SCQ format, addenda are known as Project Specific Plans.

On April 20, at the OU 5 Technical Information Exchange (TIE) meeting, the scope of work contained in this addendum was presented. In attendance at the TIE were representatives from the United States Environmental Protection Agency (U.S. EPA), Ohio Environmental Protection Agency (OEPA), Department of Energy, Fernald Field Office (DOE-FN), Department of Energy, Headquarters (DOE-HQ), and Fernald Environmental Restoration Management Corporation (FERMCO).

DOE plans to proceed with immediate implementation of this field program so as to maintain the Consent Agreement schedule milestone of delivering the draft RI report to the U.S. EPA in June 1994. Please provide any comments that you may have on this addendum at your earliest convenience as the work is either in progress or will be soon. We request that you provide comments that may result in a change of scope.

If you or your staff have questions, please contact Jack Craig at (513) 648-3107 or Pete Yerace at (513) 648-3161.

Sincerely,

Jack R. Craig  
Assistant Manager  
for Environmental Restoration
