Subject: RESPONSE TO REQUEST FOR NEPA SERVICES FOR SHIPMENT OF LABORATORY WASTE TO THE FEMP

To : C. S. Waugh

This memorandum is in response to the attached Request for NEPA Services that was submitted to the NEPA Program Group for the Shipment of Laboratory Waste to the FEMP. The NEPA Program Group has determined that shipments of Laboratory Waste to the FEMP are covered by Categorical Exclusion (CX) No.387, "FEMP Waste and Hazardous Material Shipping." NEPA Document #387 (copy attached) was approved by the DOE-FN on July 2, 1992. With the finalization of the "Waste Acceptance Criteria for Off-Site Generators" (DOE-2447-92), the NEPA compliance requirements for the receipt of laboratory wastes from off-site generators have been met.

If you have questions or the NEPA Program Group can be of further assistance, please contact me at extension 6893.

Calvin J. Brown, Manager
NEPA Program

ENVIRONMENTAL COMPLIANCE QUESTIONNAIRE

Please answer the following questions "yes" or "no" and submit this Questionnaire with the completed Request for NEPA Services form to the NEPA Coordinator.

Y N

A. Air Compliance Information:

- 1. Will the project involve construction or installation of any equipment which may emit dust, fumes, or gases (other than O₂, N₂, or CO₂) during operation?
- 2. Will the project involve construction or installation of any fuel combustion equipment, even on a temporary basis?
- 3. Will the project involve any equipment or process currently having an Ohio Environmental Protection Agency Permit to Install or Operate?
- 4. Will the project require use of any of the storage tanks currently on site or installation of new storage tanks?
- 5. Will the project involve any of the process equipment which contain radioactive material or involve managing/processing radioactive material?

B. Water Compliance Information:

- 1. Does the project involve the construction of, or modification to, a wastewater treatment system?
- 2. Does the project involve the use or discharge of water? This includes collected stormwater in excavation.

C. OU3 Compliance Information:

- 1. Will the construction/operation of the project result in the generation of waste? If yes, what type(s)?

As Described in Project Description.

The NEPA Coordinator will forward a copy of the Request for NEPA Services form and the Environmental Compliance Questionnaire to Sitewide Regulatory Integration and OU3 Compliance.
