Mr. Graham E. Mitchell, Project Manager  
Southwest District Office  
Ohio Environmental Protection Agency  
Dayton, Ohio 45402-2086

Dear Mr. Saric and Mr. Mitchell:

**TRANSMITTAL OF DRAFT REMEDIAL INVESTIGATION FEASIBILITY STUDY WORK PLAN  
ADDENDUM FOR OPERABLE UNIT 5: FEMP TRAP RANGE INVESTIGATION (DOCUMENT CHANGE  
REQUEST RIFS:93-0008)**

Enclosed for your review and approval is the subject work plan addendum. The addendum was prepared to provide a mechanism to address the collection of data needed for the Operable Unit (OU) 5 Remedial Investigation (RI) Report. The need for the additional data was identified during an evaluation of the unvalidated OU 5 RI/FS data set conducted over the past few months.

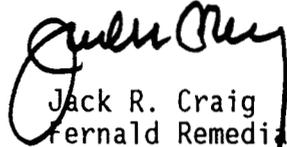

The addendum has been prepared following the recently implemented Site-Wide CERCLA Quality Assurance Project Plan (SCQ) format. In the SCQ format, the addenda are known as Project Specific Plans.

DOE has directed FERMCO to proceed with the field work prior to receipt of formal EPA approval. Immediate implementation is necessary so that DOE can maintain the Consent Agreement schedule milestone of delivering the draft RI report to the U.S. EPA in June 1994.

Please provide any comments that you may have on this addendum at your earliest convenience as the work is either in progress or will be soon. We request that you provide comments that may result in a change of scope via telephone call to me at (513) 648-3107 or Pete Yerace at (513) 648-3161.

----- If you or your staff have questions regarding this addendum, please contact me -----  
or Pete Yerace at the above listed numbers.

Sincerely,

Jack R. Craig  
Fernald Remedial Action  
Project Manager

FN:Yerace
