RE: Approval of the OU 4
Feasibility Study Document
Change Request

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the Operable Unit (OU) 4 Document Change Request (DCR) for the Feasibility Study Work Plan. This DCR will amend the existing Work Plan to allow for a qualitative comparison of alternatives of each OU. This methodology will replace the existing analytical process and will be more consistent with U.S. EPA guidance.

U.S. EPA hereby approves the DCR, however one inconsistency exists. The text states that state and community acceptance will be addressed in the record of decision, but Table 3-1, still includes sections for state and community acceptance. This inconsistency must be clarified.

Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric
Remedial Project Manager
