RE: Administrative Record

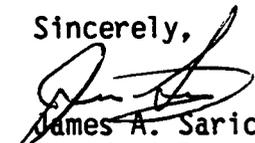

Dear Mr. Craig:

During the United States Department of Energy's (U.S. DOE) last review and inspection of the Administrative record at the office of the United States Environmental Protection Agency (U.S. EPA) in Chicago, Illinois, the existing administrative record was replaced with a revised version. The purpose of which was to incorporate a new numerical identification system thereby making the administrative record more efficient and functional.

At that time U.S. EPA informed U.S. DOE that the binders used to store the revised administrative record were too large for U.S. EPA's storage facility. Therefore, U.S. EPA requests U.S. DOE remove the existing binders and replace them with those compatible with U.S. EPA's storage area.

Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric
Remedial Project Manager
