Columbus, OH 43266-0149

Dear Mr. Crepeau:

SUBMITTAL OF THE RADIOLOGICAL ADDENDUM TO THE 1992 RESOURCE CONSERVATION AND RECOVERY ACT ANNUAL REPORT: SUPPLEMENTARY GROUNDWATER MONITORING INFORMATION SECTION

- References: 1) Letter, C:OP:93-0196, N. C. Kaufman to Thomas J. Rowland, "1992 Resource Conservation and Recovery Act Annual Report-Fernald Environmental Management Project," dated February 25, 1993
- 2) Letter, C:OP:93-0761, N. C. Kaufman to Thomas J. Rowland, "Submittal of the 1992 RCRA Annual Report Update," dated May 27, 1993

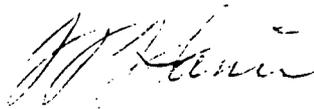

This letter transmits as an enclosure the Radiological Addendum to the 1992 Resource Conservation and Recovery Act (RCRA) Annual Report.

As explained in Reference 1, three items were not available for inclusion in the 1992 RCRA Annual Report and were to be included in an update. These items are a complete statistical evaluation containing all historical information, reporting of all radiological analytical results for 1992, and submittal of 1992 RCRA data in Environmental Protection Agency (EPA) Groundwater Information Tracking System (GRITS) format.

An update was sent to the OEPA on May 27, 1993 (Reference 2), which included the statistical evaluation and data in the GRITS format, to address this commitment; however, the radiological analytical data could not be included. The radiological analytical data received from the contract laboratories contained errors and inconsistencies that required correction and resubmittal of the data by the laboratories. The data could not be reissued from the laboratories and quality checked before June 1, so the Department of Energy (DOE) agreed to supply the radiological data before the end of September, 1993 (Reference 2).

The attached report completes the content of the 1992 RCRA Annual Report. If you or your staff have questions, please contact Ed Skintik at 648-3151.

Sincerely,

J. Phil Hamric
Manager

FN:Skintik
