RE: Approval of South Plume
Groundwater Pump Test Report

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the South Plume Groundwater Recovery System Pump Test Report. The Report is well presented and the conclusions are supported.

Therefore U.S. EPA approves the Report. However, U.S. EPA did notice typographical errors throughout the report. For example on Page 5-34, Figure 5-6 should be changed to Figure 5-9; the pump test piezometer identified as 3926 in Figure 3-3 is identified as 3920 in Figure 3-4; and on Page 5-31 the word "casing" should be changed to "screen". The United States Department of Energy should review the Report for other typographic errors and correct them accordingly.

Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric
Remedial Project Manager
