Columbus, Ohio 43266-0149

Dear Mr. Schregardus:

FERNALD ENVIRONMENTAL MANAGEMENT PROJECT'S CONCEPTUAL SITE TREATMENT PLAN

Enclosed are three copies of the Fernald Environmental Management Project's (FEMP) Conceptual Site Treatment Plan (CSTP). The Department of Energy (DOE) is required by section 3021(b) of the Resource Conservation and Recovery Act (RCRA), as amended by the Federal Facility Compliance Act (FFCA), to prepare plans describing the development of treatment capacities and technologies for treating mixed waste. The Conceptual Site Treatment Plan is the preliminary version of the plan and is being provided for your review. The CSTP provides an initial assessment of technology needs and capacities for treating mixed wastes stored or generated at the FEMP. The plan also identifies specific technologies which could be applied in treating these wastes.

If you have any questions or comments regarding the CSTP, please contact John Sattler at (513) 648-3145.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Phil Hamric".

J. Phil Hamric
Manager
