Dear Mr. Craig:

The purpose of this letter is to conditionally approve the proposed soil and rubble cover for the pile located north of Third Street. The conditions for approval are that DOE address the comments listed below.

1. The soil and rubble pile should be called a low level RAD waste and a solid waste. It is not a RCRA hazardous waste.
2. The soil and rubble pile should not be used as backfill anywhere else on site. After completion of the regrading and seeding, DOE should post this area to prevent its potential use as backfill.

If you have any questions please contact Tom Schneider or me.

Sincerely,

Graham E. Mitchell  
Project Manager
