Dear Mr. Hamric:

In letters dated December 22, 1993, and December 23, 1993, DOE-FEMP proposed revised submittal dates for the following closure plans: HF Tank Car, to be submitted March 15, 1994; Storage Pad North of Plant 6, to be submitted December 30, 1993; and the North and South Solvent Tanks, to be submitted December 30, 1993.

The purpose of this letter is to inform you that the Ohio EPA concurs with the proposed submittal dates outlined above. We are also in agreement that the Trane Liquid Waste Incinerator closure plan submittal be delayed beyond the December 21, 1993, date originally selected. The schedule for closure of this unit shall be submitted to this office by April 15, 1994, as agreed upon during RCRA/CERCLA integration negotiations.

If you should have any questions or comments, please contact me at 513-285-6357.

Sincerely,
