RE: Resolution of Three OU #5
Project Specific Plans for the
FEMP

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the Responses to Comments (RTC) and amendments for the 3 (three) Operable Unit (OU) 5 Remedial Investigation (RI)/Feasibility Study (FS) Project Specific Plans (PSP). These include: 1) Snapshot Monitoring Well Sampling and Surface Water and Sediment Sampling; 2) Surface and Subsurface Soil Sampling Investigation; and 3) Additional Monitoring Well Installation and Well Abandonment.

These PSP's were previously approved on October 13, 1993. The above-referenced documents restate RTC and serve as an amendment to the PSP's. Therefore, U.S. EPA approves the PSP's, which finalizes the OU 5 Work Plan documentation in these matters.

Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric
Remedial Project Manager
