Re: Production Area Work Plan
U.S. Department of Energy
Feed Materials Production
Center
Fernald, Ohio
OH6 890 008 976

Dear Mr. Reafsnyder:

On October 18, 1988, the United States Environmental Protection Agency (U.S. EPA) sent a letter to the United States Department of Energy (U.S. DOE) requiring the submission of scope of work for the production and suspect area remedial investigation (RI) work plan and the actual work plan. The scope of work was to be submitted within ten (10) days of the receipt of the October 18, 1988, letter and the work plan was to be submitted within thirty (30) days.

U.S. EPA has received U.S. DOE's letter dated November 7, 1988, that states that the production and suspect area work plan will be forwarded to U.S. EPA on November 15, 1988. The letter ignores the requirement that the scope of work be submitted.

U.S. DOE should submit the scope of work, with the work plan, on November 15, 1988. These documents should be forwarded to U.S. EPA's Region V office.
