Mr. J. W. Thiesing, Executive Vice President
Fernald Environmental Restoration
Management Corporation
P.O. Box 398704
Cincinnati, Ohio 45239-8704

Dear Mr. Thiesing:

REMOVAL ACTION MEMORANDUM - SMOKING SHELTER PROJECT

Reference: Letter, DOE-0930-90, Raymond J. Hansen to M. B. Boswell,
"Comprehensive Environmental Response Compensation and Liability
Act (CERCLA) Removal Actions," dated April 23, 1990

The enclosed Removal Site Evaluation for the Smoking Shelter Project has been reviewed by my office. Based on this review, the Department of Energy (DOE) has determined that the existing controls for the planned action are adequate. Therefore, this project does not constitute a removal action.

Construction rubble and debris associated with this work can be removed and dispositioned following the control measures noted within the Removal Site Evaluation (RSE) document and per the guidelines specified in the Fernald Environmental Management Project's (FEMP's) site policies and procedures and the Removal Action 17 work plan "*Improved Storage of Soil and Debris*." The project work must satisfy all health and safety requirements. The project construction and engineering work shall be approved by DOE-FN, Engineering and Construction division prior to starting the project work. Categorical exclusion for this project is approved to comply with NEPA requirements. The Administrative Record for the Remedial Investigation/Feasibility Study (RI/FS) for Operable Unit 3 should include this RSE.

At the completion of this project, Fernald Environmental Restoration Management Corporation (FERMCO) should submit a final report describing the changed site conditions, detailing the volume of waste generated, the number and type of containers used, the locations of dispositioned material (including containers), and the results of any verification sampling. Furthermore, this final report should be submitted to the Administrative Record.
