Dear Mr. Saric and Mr. Mitchell:

**OHIO ENVIRONMENTAL PROTECTION AGENCY COMMENTS ON OPERABLE UNIT 2 TREATABILITY
STUDY WORK PLAN FLYASH/LIME SLUDGE STABILIZATION**

Thank you for your comments pertaining to the subject treatability study work plan. As a result of the development of the FS/PP, a determination has been made not to proceed with the study. Once the Record of Decision is reached, and if the remedial alternative chosen involves mixing of the two waste streams, we shall initiate and complete the treatability study. Prior to initiating the study we will address all outstanding comments.

If you have any questions, please contact Rod Warner at 513-648-3156.

Sincerely,

Jack R. Craig
Fernald Remedial Action
Project Manager
