Dear Mr. Miller:

**CHANGES IN SCHEDULING OF ASBESTOS REMOVALS DURING PLANNED POWER OUTAGE AT THE FEMP**

The FEMP has scheduled a power outage for the site on April 22 to April 25 with a alternate schedule of May 6 to May 9, 1994. The facility will be closed during these time periods to replace a Power Feeder System on site. There are several asbestos projects that will be affected by this shutdown. With the exception of FEMP 94-001AA which is the Power Feeder removal there will not be any asbestos activity during the time frames mentioned earlier.

If you have any questions concerning this updated list, please contact Ervin Fisher, of my staff, at (513) 738-6053.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen M. Beckman".
