Re: Administrative Record
 U.S. DOE-Fernald
 OH6 890 008 976

Dear Mr. Reafsnyder:

In recent conversations with the United States Department of Energy (U.S. DOE) representatives, it has become evident that U.S. DOE has failed to develop the administrative record that is required for the ongoing remedial response action at the Feed Materials Production Center.

U.S. DOE should submit to the United States Environmental Protection Agency (U.S. EPA) within thirty (30) days of the date of this letter a schedule for compliance with administrative record requirements. This submittal should include the location of U.S. DOE's administrative record, a proposed list of contents, a mechanism for tracking and indexing its contents, provisions for submitting a copy of the record and indices to U.S. EPA and the Ohio Environmental Protection Agency, and the date that the record will be available for public use.

Please contact me at (312 or FTS) 886-4436, if there are any questions.

Sincerely,

for Catherine A. McCord
 RCRA Enforcement Branch
