# FERNALD CITIZENS TASK FORCE

567 7

---

June 11, 1994 • 8:30 a.m. to noon  
AmeriSuites, 12001 Chase Plaza Drive, Forest Park, Ohio

---

**The FERNALD CITIZENS TASK FORCE will be making recommendations to DOE, U.S. EPA, and Ohio EPA on these questions:**

- **What should be the future use of the site?**
- **Where should radioactive and hazardous waste be disposed?**
- **What degree of cleanup is required?**
- **What are the site cleanup priorities?**

The Task Force is scheduled to continue considering future land use options for the Fernald site, once cleanup there is complete.

**You are invited to attend and to help the Task Force make its recommendations. Task Force meetings are open to the public.**

## FERNALD CITIZENS TASK FORCE TO HOLD PUBLIC MEETING

CINCINNATI, Ohio -- The Fernald Citizens Task Force will hold its regular monthly meeting on June 11, 1994, from 8:30 a.m. to noon at the AmeriSuites, 12001 Chase Plaza Drive, Forest Park, Ohio. At the June meeting, the Task Force will develop preliminary future use scenarios by playing *FutureSite*, a learning exercise that allows Task Force members to explore various future use scenarios.

The *FutureSite* exercise illustrates the volumes of contaminated soil that must be handled in achieving alternative uses of the Fernald site. The objective is to determine a desired future use of the entire site and account for all of the contaminated material in either off-site or on-site disposal.

The meeting is open to the public, and time will be reserved for the public to address the Task Force.

The Fernald Citizens Task Force has been created to help guide

cleanup at Fernald. The U.S. Environmental Protection Agency (U.S. EPA), the Ohio Environmental Protection Agency (Ohio EPA), and DOE collaborated to form the task force. It includes representatives of the constituencies affected by clean-up decisions.

The objective of forming a task force is to seek consensus among these "stakeholders" concerning cleanup strategies, future uses of the Fernald site and other environmental restoration issues. U.S. EPA, Ohio EPA, and DOE have agreed to consider carefully the Task Force's recommendations in their decisionmaking processes, though its recommendations are not legally binding.

The major concerns of the Task Force are:

- What should be the future use of the site?
- What should be the cleanup levels?
- Where should radioactive and hazardous wastes present at the Fernald site be disposed?
- What should be the cleanup priorities?
