**DOE WORKSHOP TO DISCUSS CLEANUP ALTERNATIVES FOR OPERABLE
UNIT 2 AT THE FERNALD SITE (PUBLICITY ANNOUNCEMENTS)**

06/20/94

DOE-FN PUBLIC
2
NOTICE

**DOE WORKSHOP TO DISCUSS
CLEANUP ALTERNATIVES FOR
OPERABLE UNIT 2 AT THE
FERNALD SITE**

DATE: Tuesday, June 28, 1994

TIME: 7:00 - 9:00 p.m.

WHERE: The Alpha Building
10991 Hamilton-Cleves Hwy.
Ross, Ohio

The Department of Energy has completed the *Draft Feasibility Study* for Operable Unit 2. OU2 includes the flyash piles, the lime sludge ponds, the South Field area and the Solid Waste Landfill. Several remedial alternatives are being considered. At the workshop, preliminary information will be provided to assist in the review and comment of the *Proposed Plan* during the public comment period later this year.

**DOE WORKSHOP
OPERABLE UNIT 2
FEASIBILITY STUDY/PROPOSED PLAN**

Tuesday, JUNE 28, 1994
at
Alpha Building
10991 Hamilton-Cleves Hwy.
Ross, Ohio

The Department of Energy has proposed several possible alternatives for disposing of waste from Operable Unit 2. OU2 includes the flyash piles, the lime sludge ponds, the South Field area and the Solid Waste Landfill. Preliminary information will be provided to assist in the review and comment of the *Proposed Plan* during the public comment period later this year.

Meeting starts at 7:00 p.m.

THE PUBLIC IS INVITED
