RE: U.S. DOE-FEMP  
PART B EXTENSION  
HAZARDOUS WASTE

Dear Mr. Quaider:

Ohio EPA is in receipt of DOE-FEMP's June 2, 1994 correspondence requesting an extension of time in order to address deficiencies noted from a second round completeness/technical adequacy review of DOE-FEMP's Part B permit application. Ohio EPA acknowledges that CERCLA and FFCA Site Treatment Plan issues, including receipt of off-site waste and/or waste residues, have direct bearing on the permit application, and that decisions regarding these issues have not been finalized. In view of these issues and the reasons outlined in your letter, your request for an extended timeframe in which to submit a revised application is granted. I concur with your proposal to submit all applicable revisions at one time. Barring additional extensions, Ohio EPA will expect the revised Part B permit application on or before September 15, 1994.

Ohio EPA urges DOE-FEMP to recognize the importance of effective strategy in coordinating the Part B permit application with other regulatory issues affecting the facility. DOE-FEMP needs to be consistent with the information provided so the State can act on the permit application.

Please contact me at (513) 285-6357 if you have any questions.

Sincerely,

Harold O'Connell  
Group Leader  
Division of Hazardous Waste Management
