DOE-2378-94

Dear Stakeholder:

TRANSMITTAL OF RESPONSIVENESS SUMMARY FOR THE OPERABLE UNIT 4 FEASIBILITY STUDY/PROPOSED PLAN-DRAFT ENVIRONMENTAL IMPACT STATEMENT, SEPTEMBER 1994

Enclosed is your copy of the **Responsiveness Summary for the Operable Unit 4 Feasibility Study/Proposed Plan-Draft Environmental Impact Statement, September 1994**. This document provides the U.S. Department of Energy (DOE) information about community preferences regarding both the proposed remedial alternative and general concerns about the Fernald site. It also demonstrates how public comments were integrated into the decision-making process and it allows DOE to formally respond to public comments regarding Operable Unit 4.

This document includes copies of all written comments received on the proposed Operable Unit 4 cleanup actions and identifies changes to the Operable Unit 4 Feasibility Study/Proposed Plan-Draft Environmental Impact Statement (FS/PP-DEIS), as well as DOE's responses to those comments. On September 16, 1994, a notice of availability will appear in the *Federal Register* and local newspapers to formally announce the document's availability for public inspection, as well as a procedural 30-day waiting period prior to signing the Operable Unit 4 Record of Decision.

The **Responsiveness Summary for the Operable Unit 4 Feasibility Study/Proposed Plan-Draft Environmental Impact Statement, September 1994**, will be available at the Public Environmental Information Center and will become part of the administrative record, which contains documentation used to make decisions regarding Fernald site remediation.

Coupled with the Operable Unit 4 FS/PP-DEIS, the **Responsiveness Summary for the Operable Unit 4 Feasibility Study/Proposed Plan-Draft Environmental Impact Statement, September 1994**, constitutes the Operable Unit 4 Feasibility Study/Proposed Plan - Final Environmental Impact Statement.

If you have any questions, please call me at (513) 648-3153.

Sincerely,

Gary D. Stegner

Dear Stakeholder:

TRANSMITTAL OF RESPONSIVENESS SUMMARY FOR THE OPERABLE UNIT 4 FEASIBILITY STUDY/PROPOSED PLAN-DRAFT ENVIRONMENTAL IMPACT STATEMENT, SEPTEMBER 1994

The U.S. Department of Energy (DOE) received your postcard containing three written comments on the Operable Unit 4 Feasibility Study/Proposed Plan - Draft Environmental Impact Statement. The DOE appreciates you taking time out of your schedule to share your concerns on the remediation of Operable Unit 4 at the Fernald, Ohio site. Your concerns have been formally addressed and are included in the enclosed Responsiveness Summary for the Operable Unit 4 Feasibility Study/Proposed Plan - Draft Environmental Impact Statement, September 1994 document.

This document is also currently available for inspection in the Public Environmental Center, 10845 Hamilton-Cleves Highway, Harrison, Ohio 45030 (phone: 513-738-0164).

If you have any questions on this matter, feel free to contact me at (513) 648-3153.

Sincerely,

Gary D. Stegner
