DATA

INDEX OF REFERENCED RADIOLOGICAL ANALYTICAL DATA PACKAGES

OPERABLE UNIT 4

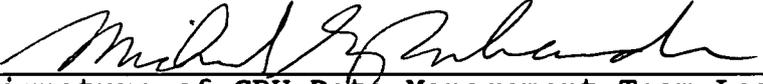

This index was compiled in August of 1994 for the Administrative Record in order to admit referenced sampling data into the Record files. It contains a listing of all radiological analytical data packages whose results were used in the Operable Unit 4 Remedial Investigation/Feasibility Study but which were actually conducted by another Operable Unit. The actual data packages are located in those Operable Unit files and are referenced here to complete the data set for Operable Unit 4.

Each radiological data package is listed by identification number. Under the identification number are listed the Data Validation Reports for that data package. Also listed are the sample numbers for each data package.

Copies of these data packages are available through the Administrative Record at the Fernald Environmental Management Project. A request can be directed to the Public Environmental Information Center.

RECORDS COMPENDIUM SIGNATURE PAGE

I certify that the attached compendium of radiological data packages and supporting documentation completely and accurately reflects the information used or considered during the Remedial Investigation and Feasibility Study for Operable Unit 4.
