Dayton, Ohio 45402-2086

Dear Mr. Saric and Mr. Schneider:

**TRANSMITTAL OF THE PROJECT SPECIFIC PLAN FOR PHASES I AND II OF THE PRE-DESIGN
FIELD INVESTIGATION**

The U.S. Department of Energy (DOE) is pleased to submit the Project Specific Plan for Phases I and II of the Pre-Design Field Investigation for the Site-Wide Disposal Facility. DOE has previously submitted the Work Plan methodologies and is submitting this plan for your review and approval.

The enclosed plan includes proposed sampling locations for the Phase II investigation. As was discussed during the September 23, 1994 meeting in Chicago, DOE-FN plans to evaluate preliminary geologic data from Cone Penetrometer Testing (CPT) to select specific sampling locations. Based on the current schedule, it is anticipated that the CPT data will be evaluated by November 28, 1994. DOE-FN would like to schedule a meeting during that week for your concurrence on the specific sampling locations.

The U.S. DOE would greatly appreciate receiving any comments that you might have regarding this plan by Friday, December 9, 1994. In order to expedite this work program, we would be happy to arrange for a telephone conference, or to meet with your representatives in person to discuss any issues or concerns.

If you have any questions or comments, please contact Rod Warner of my staff at (513) 648-3156.

Sincerely,

Kandi Allen
for Jack R. Craig
