CERTIFIED MAIL

April 14, 1989

Dear Sir or Madam:

Enclosed are Permit(s) to Operate which allow you to operate the described air contaminant source(s) in the manner indicated in the permit(s). Because these permits contain several conditions and restrictions, I urge you to read them carefully.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Board of Review pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. It must be filed with the Environmental Board of Review within thirty (30) days after notice of the Director's action. A copy of the appeal must be served on the Director of the Ohio Environmental Law Division of the Office of the Attorney General within three (3) days of filing with the board. An appeal may be filed with the Environmental Board of Review at the following address:

Environmental Board of Review
236 East Town Street
Room 300
Columbus, Ohio 43215

If you have any questions, please contact the air pollution control agency to which you submitted your application.

Very truly yours,

Thomas G. Rigo, Manager
Field Operations Section
Division of Air Pollution Control

PERMIT TO OPERATE AN AIR CONTAMINANT SOURCE**6213 - 4**Date of Issuance **04/14/89**Application No. **1431110128P087**Effective Date **04/14/89**Permit Fee **\$210**

This document constitutes issuance to:

**US DEPT OF ENERGY - FEED MATERIALS PROD
WILLEY ROAD
FERNALD OHIO 45239**

of a permit to operate for:

**PLANT 4-PACKAGING STATION: FABRIC FILTER
4-007 (JUICE HOPPERS)**

The following terms and conditions are hereby expressly incorporated into this permit to operate:

1. This permit to operate shall be effective until **04/15/92**
You will be contacted approximately six months prior to this date regarding the renewal of this permit. If you are not contacted, please write to the appropriate Ohio EPA field office.
2. The above-described source is and shall remain in full compliance with all applicable State and federal laws and regulations and the terms and conditions of this permit.
3. Prior to any modification of this source, as defined in rule 3745-31-01 of the Ohio Administrative Code (OAC), a permit to install must be granted by the Ohio EPA pursuant to OAC Chapter 3745-31.
4. The Director of the Ohio EPA or an authorized representative may, subject to the safety requirements of the permit holder, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State and federal air pollution laws and regulations and the terms and conditions of this permit.
5. A permit fee in the amount specified above must be remitted within 15 days from the issuance date of this permit.
6. Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA field office must be notified in writing of any transfer of this permit.
7. This source and any associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices in order to minimize air contaminant emissions. Any malfunction of this source or any associated air pollution control system(s) shall be reported immediately to the appropriate Ohio EPA field office in accordance with OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of this source.
8. Any unauthorized or emergency release of an air contaminant from this source which, due to the toxic or hazardous nature of the material, may pose a threat to public health, or otherwise endanger the safety or welfare of the public, shall be reported immediately to the appropriate Ohio EPA field office (during normal business hours) or to the Ohio EPA's Emergency Response Group (1-800-282-9378). (Additional reporting may be required pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act.)
9. The appropriate Ohio EPA field office is:
**SOUTHWESTERN OHIO AIR POLLUTION CONTROL AGENCY
2400 BEEKMAN ST. CINCINNATI, OH 45214
(513) 251-8777**
10. If this term and condition is checked, the permit holder is subject to the attached special terms and conditions.

OHIO ENVIRONMENTAL PROTECTION AGENCY

Director

APPLICATION NUMBER:

1431110128 P087

6218 - -

FACILITY NAME:

U S Dept of Energy - Feed Materials Prod

EQUIPMENT DESCRIPTION:

Plant 4 - Packaging Station: Fabric Filter

COMPANY ID:

4-007 (Juice Hoppers)

SPECIAL TERMS AND CONDITIONS

1. Applicable Rules:

The following rules of the Ohio Administrative Code and the Code of the Federal Regulations establish the applicable emission limitations and/or control requirements for this source: 3745-15-07, 3745-17-07, 3745-17-11, 40 CFR Part 61 - Subpart H, and 40 CFR Parts 117 and 302.

(This condition in no way limits the applicability of any other state or federal regulation.)

2. Mass Emission Limitations:

The mass emission rate from the operation of this source shall not exceed the following:

3.38 pounds of particulate per hour.

3. National Emission Standards for Hazardous Air Pollutants (NESHAPS) Requirements:

This source and all other sources located at the D.O.E. Feed Materials Production Center which emit or have the potential to emit radionuclides to the ambient air shall comply with the requirements specified in 40 CFR Part 61 Subpart H effective February 6, 1985.

4. Nuisances Prohibited:

This source shall be operated and maintained so that the emissions are not in such manner or in such amounts so as to endanger the health, safety or welfare of the public, or cause unreasonable injury or damage to property.

5. Monitoring Requirements:

This source shall utilize an existing fabric filter which is currently operating at the FMPC Plant 4. The exhaust stack associated with the fabric filter shall be equipped with a NLO-developed continuous flow stack sampler. The sampler shall draw a continuous sample at an isokinetic rate from a fixed point within the exhaust stack. Collected samples shall be analyzed to determine both particulate (as needed) and radionuclide emission rates from the source exhaust.

Results of the sampling analysis shall be maintained for a minimum of 24 months, and shall be made available to the Director or any authorized representative of the Director for review during normal business hours.

PERMIT TO OPERATE AN AIR CONTAMINANT SOURCE

Date of Issuance 04/14/89

Application No. 1431110128P067

Effective Date 04/14/89

Permit Fee \$210

This document constitutes issuance to:

US DEPT OF ENERGY - FEED MATERIALS PROD
WILLEY ROAD
FERNALD OHIO 45239

of a permit to operate for:

CASTING FURNACES #15 THRU #28: FABRIC FILTER/HEPA
PLANT 5 WEST CASTING FURNACES: 5-037---5-049

The following terms and conditions are hereby expressly incorporated into this permit to operate:

1. This permit to operate shall be effective until 04/13/92
You will be contacted approximately six months prior to this date regarding the renewal of this permit. If you are not contacted, please write to the appropriate Ohio EPA field office.
2. The above-described source is and shall remain in full compliance with all applicable State and federal laws and regulations and the terms and conditions of this permit.
3. Prior to any modification of this source, as defined in rule 3745-31-01 of the Ohio Administrative Code (OAC), a permit to install must be granted by the Ohio EPA pursuant to OAC Chapter 3745-31.
4. The Director of the Ohio EPA or an authorized representative may, subject to the safety requirements of the permit holder, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State and federal air pollution laws and regulations and the terms and conditions of this permit.
5. A permit fee in the amount specified above must be remitted within 15 days from the issuance date of this permit.
6. Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA field office must be notified in writing of any transfer of this permit.
7. This source and any associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices in order to minimize air contaminant emissions. Any malfunction of this source or any associated air pollution control system(s) shall be reported immediately to the appropriate Ohio EPA field office in accordance with OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of this source.
8. Any unauthorized or emergency release of an air contaminant from this source which, due to the toxic or hazardous nature of the material, may pose a threat to public health, or otherwise endanger the safety or welfare of the public, shall be reported immediately to the appropriate Ohio EPA field office (during normal business hours) or to the Ohio EPA's Emergency Response Group (1-800-282-9378). 4. Nuisances Prohibited:

This source shall be operated and maintained so that the emissions are not in such manner or in such amounts so as to endanger the health, safety or welfare of the public, or cause unreasonable injury or damage to property.

5. Monitoring Requirements:

This source shall utilize an existing fabric filter which is currently operating at the FMPC Plant 4. The exhaust stack associated with the fabric filter shall be equipped with a NLO-developed continuous flow stack sampler. The sampler shall draw a continuous sample at an isokinetic rate from a fixed point within the exhaust stack. Collected samples shall be analyzed to determine both particulate (as needed) and radionuclide emission rates from the source exhaust.

Results of the sampling analysis shall be maintained for a minimum of 24 months, and shall be made available to the Director or any authorized representative of the Director for review during normal business hours.

PERMIT TO OPERATE AN AIR CONTAMINANT SOURCE**6213 - A**Date of Issuance **04/14/89**Application No. **1431110128P089**Effective Date **04/14/89**Permit Fee **\$210**

This document constitutes issuance to:

**US DEPT OF ENERGY - FEED MATERIALS PROD
WILLEY ROAD
FERNALD OHIO 45239**

of a permit to operate for:

**PLANT 4-PACKAGING STATION #2: FABRIC FILTER
4-009-PACKAGING STATION #2**

The following terms and conditions are hereby expressly incorporated into this permit to operate:

1. This permit to operate shall be effective until **04/13/92**
You will be contacted approximately six months prior to this date regarding the renewal of this permit. If you are not contacted, please write to the appropriate Ohio EPA field office.
2. The above-described source is and shall remain in full compliance with all applicable State and federal laws and regulations and the terms and conditions of this permit.
3. Prior to any modification of this source, as defined in rule 3745-31-01 of the Ohio Administrative Code (OAC), a permit to install must be granted by the Ohio EPA pursuant to OAC Chapter 3745-31.
4. The Director of the Ohio EPA or an authorized representative may, subject to the safety requirements of the permit holder, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State and federal air pollution laws and regulations and the terms and conditions of this permit.
5. A permit fee in the amount specified above must be remitted within 15 days from the issuance date of this permit.
6. Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA field office must be notified in writing of any transfer of this permit.
7. This source and any associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices in order to minimize air contaminant emissions. Any malfunction of this source or any associated air pollution control system(s) shall be reported immediately to the appropriate Ohio EPA field office in accordance with OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of this source.
8. Any unauthorized or emergency release of an air contaminant from this source which, due to the toxic or hazardous nature of the material, may pose a threat to public health, or otherwise endanger the safety or welfare of the public, shall be reported immediately to the appropriate Ohio EPA field office (during normal business hours) or to the Ohio EPA's Emergency Response Group (1-800-282-9378). (Additional reporting may be required pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act.)
9. The appropriate Ohio EPA field office is:
**SOUTHWESTERN OHIO AIR POLLUTION CONTROL AGENCY
2400 BEEKMAN ST. CINCINNATI, OH 45214
(513) 251-8777**
10. If this term and condition is checked, the permit holder is subject to the attached special terms and conditions.

SPECIAL TERMS AND CONDITIONS

1. Applicable Rules:

The following rules of the Ohio Administrative Code and the Code of the Federal Regulations establish the applicable emission limitations and/or control requirements for this source: 3745-15-07, 3745-17-07, 3745-17-11, 40 CFR Part 61 - Subpart H, and 40 CFR Parts 117 and 302.

(This condition in no way limits the applicability of any other state or federal regulation.)

2. Mass Emission Limitations:

The mass emission rate from the operation of this source shall not exceed the following:

3.63 pounds of particulate per hour.

3. National Emission Standards for Hazardous Air Pollutants (NESHAPS) Requirements:

This source and all other sources located at the D.O.E. Feed Materials Production Center which emit or have the potential to emit radionuclides to the ambient air shall comply with the requirements specified in 40 CFR Part 61 Subpart H effective February 6, 1985.

4. Nuisances Prohibited:

This source shall be operated and maintained so that the emissions are not in such manner or in such amounts so as to endanger the health, safety or welfare of the public, or cause unreasonable injury or damage to property.

5. Monitoring Requirements:

This source shall utilize an existing fabric filter which is currently operating at the FMPC Plant 4. The exhaust stack associated with the fabric filter shall be equipped with a NLO-developed continuous flow stack sampler. The sampler shall draw a continuous sample at an isokinetic rate from a fixed point within the exhaust stack. (This condition in no way limits the applicability of other requirements of the Ohio Administrative Code to this source.)

2. National Emission Standards for Hazardous Air Pollutants (NESHAP) Requirements:

This source and all other sources located at the D.O.E. Feed Materials Production Center which emit or have the potential to emit radionuclides to the ambient air shall comply with the requirements specified in 40 CFR Part 61, Subpart H effective February 6, 1985.

3. Monitoring Requirements:

The RTA process tank will use an existing nitric acid recovery tower (bubble cap tower) which is currently operating at the FMPC Plant 2/3. The exhaust stack associated with the nitric acid recovery tower will be equipped with a continuous flow NO_x analyzer.

4. Notification Requirement:

Should U.S. D.O.E. - Feed Materials Production Center decide to replace, modify or upgrade the existing control equipment the Ohio EPA field office shall be notified in writing prior to such changes or modifications.

PERMIT TO OPERATE AN AIR CONTAMINANT SOURCEDate of Issuance **04/14/89**Application No. **1431110128P116**Effective Date **04/14/89**Permit Fee **\$330**

This document constitutes issuance to:

**US DEPT OF ENERGY - FEED MATERIALS PROD
WILLEY ROAD
FERNALD OHIO 45239**

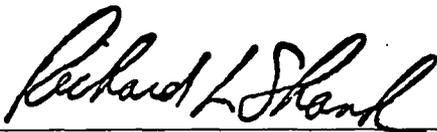

of a permit to operate for:

**PLANT 2/3-RTS PROCESSING TANK D1-4: NAR TOWER
2-004 RTS PROCESS TANK D1-4**

The following terms and conditions are hereby expressly incorporated into this permit to operate:

1. This permit to operate shall be effective until **04/13/92**
You will be contacted approximately six months prior to this date regarding the renewal of this permit. If you are not contacted, please write to the appropriate Ohio EPA field office.
2. The above-described source is and shall remain in full compliance with all applicable State and federal laws and regulations and the terms and conditions of this permit.
3. Prior to any modification of this source, as defined in rule 3745-31-01 of the Ohio Administrative Code (OAC), a permit to install must be granted by the Ohio EPA pursuant to OAC Chapter 3745-31.
4. The Director of the Ohio EPA or an authorized representative may, subject to the safety requirements of the permit holder, enter upon the premises of this source at any reasonable time for purposes of making inspections, conducting tests, examining records or reports pertaining to any emission of air contaminants, and determining compliance with any applicable State and federal air pollution laws and regulations and the terms and conditions of this permit.
5. A permit fee in the amount specified above must be remitted within 15 days from the issuance date of this permit.
6. Any transferee of this permit shall assume the responsibilities of the prior permit holder. The appropriate Ohio EPA field office must be notified in writing of any transfer of this permit.
7. This source and any associated air pollution control system(s) shall be maintained regularly in accordance with good engineering practices in order to minimize air contaminant emissions. Any malfunction of this source or any associated air pollution control system(s) shall be reported immediately to the appropriate Ohio EPA field office in accordance with OAC rule 3745-15-06. Except as provided in that rule, any scheduled maintenance or malfunction necessitating the shutdown or bypassing of any air pollution control system(s) shall be accompanied by the shutdown of this source.
8. Any unauthorized or emergency release of an air contaminant from this source which, due to the toxic or hazardous nature of the material, may pose a threat to public health, or otherwise endanger the safety or welfare of the public, shall be reported immediately to the appropriate Ohio EPA field office (during normal business hours) or to the Ohio EPA's Emergency Response Group (1-800-282-9378). (Additional reporting may be required pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act.)
9. The appropriate Ohio EPA field office is:
**SOUTHWESTERN OHIO AIR POLLUTION CONTROL AGENCY
2400 BEEKMAN ST. CINCINNATI, OH 45214
(513) 251-8777**
10. If this term and condition is checked, the permit holder is subject to the attached special terms and conditions.
