Columbus, Ohio 43266-1049

Dear Dr. Shank:

**SAMPLING PLAN FOR THE RINSEATES OF THE BARIUM CHLORIDE WASTE
SALT TREATMENT FACILITY - FEED MATERIALS PRODUCTION CENTER**

Reference is made to my letter to you dated February 19, 1988; subject "Closure Plan for the Barium Chloride Waste Salt Treatment Facility - Feed Materials Production Center".

As indicated in the referenced letter, we proposed to provide to you our sampling plan for rinseates by May 12, 1988. However, in order to develop a sampling plan that will accurately characterize the rinseates, an extension of the submittal date to July 29, 1988 is required. As you are aware, the U. S. EPA has not yet approved the closure plan, therefore, actual closure can not yet begin. The sampling plan for the rinseates will be submitted to you prior to the start of closure.

Please contact Mike Travaglini of our Environmental Protection Division at (615) 576-0848 if you have any questions on this matter.

Sincerely,

James A. Reafsnyder
Site Manager
