Dear Mr. Reafsnyder:

On October 16, 1989, I spoke with Mr. Jack Craig, DOE, and Mr. Bill Weinreich, Westinghouse, by telephone regarding the revisions to the Barium Chloride Treatment Unit Rinseate Sampling Plan and Residue Sampling Plan. At that time, I verbally approved the use of these revised plans. This letter serves as written confirmation of that approval. These plans supercede those that were submitted March 18, 1988 (Residue Plan) and January 26, 1989 (Rinseate Plan). U.S.DOE-FMPC must complete the closure of the treatment unit as soon as possible. Call me at (513) 449-6357 if you have any questions or comments.

Sincerely,

Paul D. Pardi
