**THE UNITED STATES DEPARTMENT OF ENERGY
ANNOUNCES THE AVAILABILITY FOR PUBLIC INSPECTION
THE DRAFT RECORD OF DECISION
FOR REMEDIAL ACTIONS AT OPERABLE UNIT 2 AT THE
FERNALD ENVIRONMENTAL MANAGEMENT PROJECT**

The U. S. Department of Energy (DOE) announces that the *Draft Record of Decision (ROD) for Remedial Actions at Operable Unit 2* at the Fernald Environmental Management Project (FEMP), as submitted to the United States Environmental Protection Agency, Region V (U.S. EPA) on February 4, 1995, is now available in the Administrative Record File for public inspection. The Draft ROD for Operable Unit 2 summarizes the development and evaluation of remedial alternatives and the basis for identification of the selected remedy for Operable Unit 2. In accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, and the Amended Consent Agreement between DOE and U.S. EPA, this Draft ROD contains the Draft Responsiveness Summary, which addresses all public comments received during the public comment period on the Operable Unit 2 Feasibility Study/Proposed Plan - Environmental Assessment. The public comment period on that document was October 26, 1994, through January 20, 1995. Since this is the initial submittal of the Operable Unit 2 Draft ROD and Responsiveness Summary to the U.S. EPA, it may be subject to change based on U.S. EPA comments.

An Administrative Record file was previously established to include a compendium of documentation considered or relied upon in choosing a response action for Operable Unit 2. The *Draft Record of Decision for Remedial Actions at Operable Unit 2* and the Administrative Record file are available at the following local location and times:
