Dr. M. Kathryn Brown  
Chair, City of Cincinnati  
Environmental Advisory Council  
5137 Salem Hill Lane  
Cincinnati, Ohio 45230

Dear Dr. Brown:

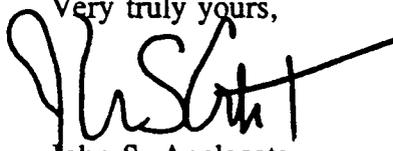

I am writing to encourage you to participate in a roundtable meeting with the Fernald Citizens Task Force. The purpose of the roundtable is to have leading members of the communities surrounding Fernald work directly with the Task Force as we develop recommendations for the safe clean-up of the Fernald site.

As you know, the Task Force has been working hard over the past year to develop recommendations for the clean-up of the Fernald property, and we have issued an Interim Report on risk and future use issues. The Task Force firmly believes that the more input we receive from Fernald's neighboring communities, the better our recommendations will be. In the past, we have held workshops on particular issues, and of course all of our regular monthly meetings are open to the public.

Now, however, we are at a critical juncture in our decisionmaking process, as we turn to a recommendation on the safe disposition of the waste materials that will be generated by the clean-up. For this issue, we want to go beyond a simple exchange of views. The roundtable format will allow everyone around the table to learn about options, to ask questions, to consider consequences, and to express opinions. We want you to roll up your sleeves with us and tackle this difficult and important problem.

The roundtable working session is scheduled for Wednesday, January 25, 1995, at 7:00 p.m. at the Plantation on Dry Fork Road in Harrison, Ohio. I hope you will be able to attend. To ensure that we have enough materials and places at the table, please R.S.V.P. by Friday, January 20, 1995 by calling Judy Armstrong at 738-0003 or the Task Force message line at 648-6478. If you have any questions in the meantime, however, please do not hesitate to call me or any member of the Task Force directly.

Very truly yours,

John S. Applegate  
Chair
