Mr. Tom Schneider, Project Manager
Ohio Environmental Protection Agency
401 East 5th Street
Dayton, Ohio 45402-2911

Dear Mr. Saric and Mr. Schneider:

REMOVAL ACTION NUMBER 15 "SCRAP METAL PILE - PHASE I" SECONDARY WASTE STREAM UPDATE

Reference: Letter, Jack R. Craig to James A. Saric and Tom Schneider,
Information Pertaining to the Final Disposition of the Secondary
Waste Stream from Removal Action No. 15, "Scrap Metal Pile -
Phase I," dated November 29, 1994

This letter provides an update on the disposition of secondary wastes from Removal Action Number 15, "Scrap Metal Pile - Phase I," in accordance with the referenced letter. The secondary waste streams produced during this removal action were lead (metal from the scrap metal pile), slag (a by-product of the metal melt process), and oxide waste (a mixture of grit, lead paint, and rust particles).

The treatment and disposition of the secondary wastes has been delayed pending resolution of issues with the subcontractor performing the work. The three waste streams are currently stored in containers at the contractor's facility in Oak Ridge, Tennessee. The contained waste streams are isolated from other waste streams, protected from the weather, and exhibit no threat to human health or the environment.

Information pertaining to disposition of these secondary waste streams will be provided upon conclusion of negotiations with the contractor. If you have any

questions, please contact Mr. Donald A. Pfister at (513) 648-3170.

Sincerely,

Randi Allen

for Jack R. Craig
Fernald Remedial Action
Project Manager
