RE: DOE FEMP  
MSL #531-0297  
RA 20 UNH  
APPROVAL - INSPECTION CHANGE

Mr. Jack Craig  
Director  
U.S. DOE FEMP  
P.O. Box 398705  
Cincinnati, OH 45329-8705

Dear Mr. Craig:

Ohio EPA has reviewed DOE's requested change to UNH leak inspections as outlined in DOE's April 26, 1995 letter (DOE-0876-95). Ohio EPA approves DOE's request to decrease leak inspection frequency to once per day, but reserves the right to have inspection frequency increased should conditions warrant. Ohio EPA's approval is based upon the reduced number of leaks, leak containment activities, and recent DOE/FERMCO actions to transfer and/or neutralize UNH.

If you should have any questions, please contact Tim Hull, Phil Harris, or me.

Sincerely,

Thomas A. Schneider
