RE: Approval of Removal Action 30
Work Plan

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Final Removal Action (RA) 30 Work Plan for Seepage Control at the South Field and Inactive Flyash Pile.

On April 5, 1995, U.S. EPA verbally approved the initiation of field activities. U.S. DOE has adequately addressed U.S. EPA's comments and incorporated the responses into the final work plan.

Therefore, U.S. EPA hereby approves the RA 30 work plan. Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric
Remedial Project Manager
Technical Enforcement Section #1
RCRA Enforcement Branch
