REPLY TO THE ATTENTION OF:

RE: Removal Action No. 9,  
Chemical Treatment  
Project

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy (U.S. DOE) Fernald Environmental Management Project (FEMP) Mixed Waste Chemical Treatment Project General Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Work Plan. The Chemical Treatment Project is the implementation of the Ohio Mobile Chemical Treatment System preferred option presented in the FEMP Site Treatment Plan (STP). As described in the STP, treatment of the waste in the Chemical Treatment Project will occur on-site using currently available technologies and vendor provided mobile services augmented by existing on-site facilities.

U.S. EPA therefore approves this Chemical Treatment Project Work Plan. Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
