Re: 1995 SPLIT SAMPLE RESULTS

January 23, 1996

Ms. Kathleen A. Nickel  
U.S. DOE FEMP  
P.O. Box 538705  
Cincinnati OH 45253-8705

Dear Ms. Nickel:

As discussed in our telephone conversation of January 23, 1996, Ohio EPA is requesting all of the FEMP 1995 results generated by the Ohio EPA/ FERMCO split sampling program. We are requesting all available 1995 results be reported to us no later than February 29, 1996. These results will be used in our development of an annual report consistent with Ohio EPA's commitments under the Agreement In Principal. We are aware that some of the results may not be available by February 29, 1996. We would appreciate it if any results which are not be available at that time be delivered to us as they become available. The Ohio EPA/FERMCO split sampling program includes: groundwater, surface water , sediment, soil, fish, and grass.

If you have any questions, feel free to call me at (513) 285-6057. Thank you for your cooperation.

Sincerely,

Rex Brown  
Data Manager
